

# Barton Square Shopping Complex

## Client

Jim Ennis Construction for  
The Peel Group

## Value

£120,000

## Completion

August 2008

Barton Square is the £79 million extension to the Trafford Centre; Site Electrical was awarded the complete mechanical and electrical scope for the pumping stations by Jim Ennis Construction Ltd. The surface water pumping station was designed for a one in one hundred year storm and has a three pump arrangement; the foul water pumping station uses two pumps.

- 2 No. 9 KW foul pumps - ITT Flygt NP 3153
- 3 No. 37 kW storm pumps - ITT Flygt NP 3202
- 2 No. MCC's for the foul and storm pumps in separate kiosks

Mr M.A Duffy, Commercial Manager at Jim Ennis Construction Ltd said, "The co-operation and technical assistance offered by Site Electrical was invaluable, once on site the installation went smoothly and according to plan."
